

Writing Rocks!

examples make ideas come to life!

In *We Love to Share*, Chip sings about the idea of sharing. He uses lots of examples of things that can be shared, activities that involve sharing, and some of those good things that happen when we share. Listen to the song and list some of these examples. Later, think of your own idea, like “being adventurous” or “helping the environment” and come up with as many examples as you can to bring your idea to life.
