

Writing Rocks!

make a list!

Make some lists! You can list everything in your room, everything you see while sitting at a red light, everything you do to get ready for school in the morning. Look at your list and see if it gives you any ideas for stories, songs, or poems. Are the items related in any interesting ways? Imagine your list from another perspective. What would a bird think about all the items on your list?

The song *Josie's Pets* is created from a list. Can you create something from your list? If you can't think of anything, write your list out in a cool way and decorate it!
